Good Afternoon Denise – I just wanted to follow up on some deliverables from our last meeting. The only thing remaining other than some internal conversations we are having around Tev-Tropin and Azilect are the two pieces of legislation I promised you. Once I receive the actual reference for them from counsel I will forward them onto you ASAP.

In regards to Express Prior Authorization or ePA

- 2,500 Monthly Maintenance upon launch of product
- 15.00 Per Transaction

In regards to the fund allocation for the year 2012 for patients receiving funding through the Assistance Fund, the troop actually went up slightly as expected. The allocation per patient for 2012 is \$4,600. To give you a historical number of what it has been in the past:

- 2012 - \$4,600
- 2011 - \$4,400
- 2010 - \$5,600

I will be in touch very shortly with the rest of the deliverables. If you have any questions, please do not hesitate to contact me directly.

Edward
